Repairing an economy takes time, but Australia is turning the corner. There's more to do, so a re-elected Labor Government will build on these foundations.

Labor will:

- Help Australians with the cost of living with another \$150 off your power bills, more tax cuts for every taxpayer and cutting all HECS debt by 20%.
- **Strengthen Medicare** with the biggest investment in bulk billing ever so all Australians can see a doctor for free and opening 50 more Medicare Urgent Care Clinics.
- **Continue the largest house build in Australian history,** building 1.2 million homes in five years and help more first-time buyers buy a home.
- **Invest in every stage of education** from expanded early childhood education, schools investment and making free TAFE permanent.
- Deliver a new National Convention & Entertainment Precinct and Canberra Aquatic Centre, which will boost our economy, create new jobs and make Canberra an even better place to live.
